

iLembe District Accommodation Surveys - June 2017

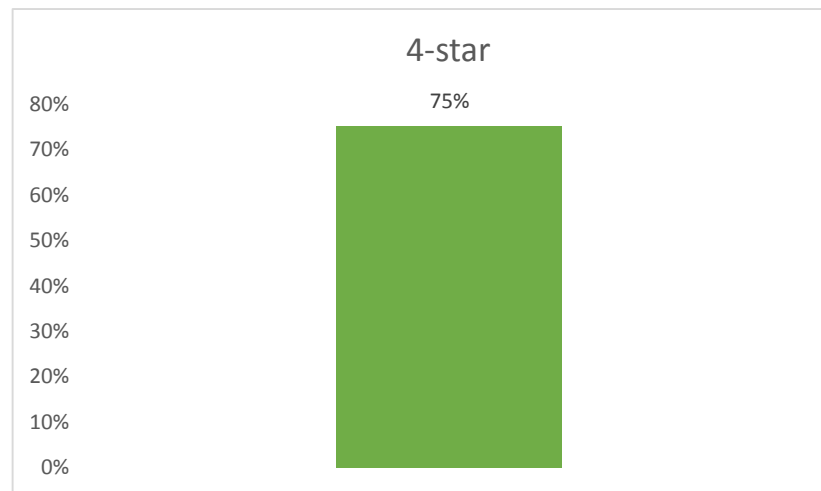

The iLembe District tourism industry research study is being conducted by Enterprise iLembe. Grant Thornton conducts the research on their behalf using a standardised survey that is completed online or telephonically and analysed by Grant Thornton. The research is consolidated on a quarterly basis to estimate the number of overnight tourists to iLembe District. In June 2017, 32 establishments representing 642 rooms/units participated in the survey.

Average room/unit occupancy in June was 59% (n=32)

Average room occupancy by type of establishment

Average room occupancy by grade

**Data for holiday letting still forthcoming*
